Tumor types, 335-336
Normal structure and function, 330-335

Plasma cell neoplasms, 38-39

Gammopathy, ideopathic monoclonal, 39
Macroglobulinemia of Waldenstrom, 47-49
Complications, treatment of, 47-48
Multiple myeloma,
Treatment of, 39-47
Myeloma, asymptomatic, 39
Plasmacytoma, 38-39

Plasmacytoma, localized, 38-39

Progestins

For treatment of breast cancer, 168-170

Prostate cancer, 245

Pyelography, excretory, 219

R

Radiation oncology

Glossary of related terms, 315-320
Historical perspective on, 258-259
New instrumentation, 299-309
For dose localization, 301-305
For tumor localization, 300-301
New types of radiation, 305-308
Heavy ions, 307-308
Negative π mesons, 307
Neutrons, 305-306

Radioisotope scanning, 220

For detection of thyroid cancer, 154-155

Radiology, diagnostic, 260-268

Abdominal roentgenogram, 219
CAT scanning, 260-265, 300-301
Excretory pyelography, 219
Mammography
Editorial on, 376-378
Radioisotope scanning, 154-155, 220
Total body opacification, 219

Ultrasonography, 219-220
Xeroradiography, 111-113

Radiotherapy for cancer

Combined with chemotherapy, 274-292

- For brain cancer, 290-291
- For breast cancer, 289
- For childhood cancer, 291
- For esophageal cancer, 286-288
- For genitourinary cancer, 288-289
- For gynecologic cancer, 289-290
- For head and neck cancer, 283-285
- For Hodgkin's disease, 290
- For leukemia, 290
- For lung cancer, 285-286
- For pancreatic cancer, 286-288
- For sarcomas, 291
- For stomach cancer, 286-288

Problems, clinical, 274-279

Therapeutic sequence and combination, 279-291

Combined with surgery, 270-273

- For management of regional subclinical disease, 270
- Future prospects of, 272
- History of, 269-270

- For Ewing's sarcoma, 176-178
- For laryngeal cancer, 212-218
 - Complications, 215-216
 - Prognosis, 216-217
- For lymph nodes, 242
- For palliation, 297-298
- For penile lesions, 140
- For pituitary cancer, 346-347
- Supportive care during, 293-297
- Treatment problems, 303
 - Positioning patient and machine, 303-304

Rehabilitation

Of the radiotherapy patient, 297

Renal lesions

In childhood, 220-227

Reporting on Cancer Research, 55-57, 126-127, 188-189, 255-256, 327-328, 379-380

Retroperitoneal lesions

In childhood, 231-232

Roentgenogram, abdominal, 219

Recurrence of cancer, 185

S

Sarcomas

Of childhood

- Combined chemotherapy and radiotherapy for, 291

Osteogenic, 351-359

- Metastatic,
 - Chemotherapy for, 351-359
- Staging of, 351

Survival rates, 351, 354, 358

Treatment of, 351-359

Scanning

CAT, 260-265, 300-301

Radioisotope, 154-155, 220

Sclerosing hemangioma

Differential diagnosis of malignant melanoma and, 94

Seborrheic keratosis

Differential diagnosis of malignant melanoma and, 92

Senile hemangioma

Differential diagnosis of malignant melanoma and, 93

Simulators, radiation therapy

For improved dose localization, 302

Skin cancer

And the sun, 245

Smegma

And penile cancer, 130-132

Smoking, cigarette, 113-114

Among physicians and other health professionals, 373-375

And teenage girls, 191-192

Editorial on, 191-192

Helping smokers quit, 236-241

Spitz nevus

Differential diagnosis of malignant melanoma and, 89

Squamous cell carcinoma, 31

Of the penis

Etiology, 132

Treatment of, 133-141

Statistics, cancer, 14-29

For black and white populations, 2-13

Smoking, cigarette,

- Among physicians and other health professionals, 373-375

Stomach cancer

Combination chemotherapy and radiotherapy for, 286-288

Subglottic cancer

Radiation therapy for, 215

Surgical management of, 207-208

Supraglottic cancer

Radiation therapy for, 214-215

Surgical management of, 205-207

Surgery

Combined with radiation therapy, 270-272

Endocrine,

- For management of breast cancer, 165-168

For fibrosarcoma, 246

For laryngeal cancer, 201-211

For malignant melanoma, 97-101

For penile lesions, 136-141

For pituitary cancer, 345-346

For thyroid cancer, 158

Survival rates of cancer patients

With chronic lymphocytic leukemia, 114

With primary cutaneous melanoma,
104-106

T

Testicular tumors

And elevated AFP levels, 114

Thyroid cancer

Etiology of, 160

Irradiation-related, 150-159

Detection of, 154-158

High-risk patients, 153-154

History of, 150-153

Incidence of, 151, 153

Staging of, 156-158

Treatment of, 158-159

Management of

Anaplastic thyroid cancer, 162-163

Differentiated thyroid cancer,
160-161

Medullary carcinoma of thyroid,
163-164

Tissue support

During radiotherapy, 294-295

Tomography, computerized axial

See CAT scanning

Transglottic cancer

Radiotherapy for, 208-209

Surgical management of, 208-209

U

Ultrasonography, 219-220

Unproven methods of cancer management

Hydrazine sulfate, 108-110

Laetrile, 50-54

V

Viewing the Journal of the National

Cancer Institute, 58-59, 124-125,

186-187, 250-251, 322-323, 383-384

Vulvar cancer, epidermoid, 360-367

Diagnosis of, 361-362

Etiology of, 360-361

Rehabilitation therapy, 367

Staging, 362-367

Treatment of, 362-367

W

Waldenstrom's macroglobulinemia,

47-49

X

X-rays

For cancer diagnosis, 111-113

Send Us Your Questions on Cancer

We will refer specific questions in any area of cancer management to a leading cancer specialist.

All questions will be answered and some will be published in *Ca-A Cancer Journal for Clinicians*.

Please submit your questions to:
